**CLOUD
SERVICES**

**A MANAGED AND SECURE CLOUD ENVIRONMENT
FOR HOSTING DATA AND APPLICATIONS**

CLOUD SERVICES

Hosting your data and applications in a managed and secure cloud environment at a fixed cost.

With cloud services being simple to adopt, scalable, adaptable and available on demand, cloud computing is the way businesses now operate.

Cloud computing means storing and accessing data and applications securely over the internet, in "The Cloud". It provides easy and affordable access to software, servers and storage. Our qualified and experienced solution architects are available to discuss how cloud works and the benefits for your business. Let us help you get started.

1. CLOUD SERVICES

TERAC@

CLOUD SERVICES

Compute

GZD

In today's digital age, cloud computing is revolutionising the way businesses operate, offering unparalleled flexibility, scalability, and efficiency.

At GZD, we provide a comprehensive range of cloud computing solutions tailored to meet the diverse needs of your organisation. We are powered by Teraco's trusted data centre environment: a power resilient, highly secure, and sustainable platform.

By leveraging our expertise, you can ensure that your business stays agile, secure, and ahead of the competition in an ever-evolving technological landscape.

1.

MANAGED CLOUD APPS & DESKTOPS

With just an internet connection you can work on any device, anywhere in the world.

2.

MANAGED HOSTED SERVERS

Add RAM/CPU and storage with our flexible packages.

3.

FILE SHARING

With backups, synchronisation, security, full control over file access and full PoPIA compliance.

4.

CLOUD STRATEGY

We will assess your IT environment and create the ideal cloud strategy for your business.

5.

BACKUP AND RECOVERY

We make it easy to backup and restore data in the cloud, and our disaster recovery plans are fully-managed and customised per user.

CLOUD SERVICES

Voice

GZD

Effective communication is the backbone of any successful business.

Our cloud-based voice solutions provide crystal-clear call quality, seamless integration with your existing IT infrastructure, and unparalleled flexibility.

From managed VoIP services and unified communications to advanced call routing and virtual PBX systems, our comprehensive voice solutions ensure your team can connect and collaborate effortlessly from anywhere, at any time.

Experience the benefits of a modern, scalable, and reliable voice infrastructure.

UNIFIED COMMUNICATIONS PLATFORM

Our Cloud PBX is a software-based telephone system allowing you to make calls via landline or mobile from anywhere in the world while using our secure next-generation IP network.

Features, such as unlimited extensions, CRM integration and instant messaging, will enhance your workplace productivity.

- Make and take calls from anywhere
- Instant messaging and chat
- WhatsApp integration
- Conference calls
- Free VoIP calls with your smartphone
- Encrypted and secure
- Unlimited extensions
- Cloud or locally-hosted
- User-friendly mobile apps (Android and iOS)
- Presence
- Fax2Email
- Voicemail
- Automated telephone provisioning
- Office 365 integration
- Call reporting
- Call recording
- And more...
